

Maddie OS, Daily Cheat Sheet

What to say, when. Tape this to your monitor.

START THE DAY

Say `morning`, `hey`, `hi`. Fires your Daily Briefing.

Working on one brand all morning? Say `let's work on Stride`, switch to Fade Golf.

DRAFTING CONTENT

You want to...	Just say...
Plan a whole campaign	<code>expand campaign for [topic]</code>
Brief a shoot	<code>filming brief for Luke swing reels</code>
Brief an ambassador to post	<code>ambassador brief for Luke</code>
Build a landing page	<code>landing page brief for [topic]</code>
Turn one post into ten	<code>repurpose this for Facebook and TikTok</code>
Draft an email or Slack	<code>draft an email to Luke about Friday</code>
Capture an idea fast	<code>add to notes: [thought]</code>

CHECK BEFORE YOU PUBLISH

You want to...	Just say...
Everything at once	<code>is this ready to ship</code>
Just the words	<code>proofread this: [text]</code>
Just the tone	<code>does this match the Stride voice</code>
Just the design	<code>visual check this</code>
Full agent-chain improvement	<code>critique this [filepath]</code>

THINKING PARTNER

- Pressure-test a plan before it ships: grill me on this
- Prep a hard conversation: help me prep for a difficult conversation with [name]
- Park work mid-task: save this for later

PAID ADS

- Headlines: google ads variations for [topic]
- Keywords: keywords for stride nail surgery

REPORTING AND DATA

- Weekly Slack post: weekly report
- Month end: monthly report for May
- Raw numbers: pull the data for Stride this week

MEETINGS

- Prep: meeting prep for Tom Zoom tomorrow
- Process recordings: check my meetings
- Capture an idea: add to notes: [thought]

LOOK SOMETHING UP

- Research a tactic, tool, or topic: research [topic] or is [thing] any good
- Find something in Slack: search Slack for [thing]

END THE DAY

Say `done`, `that's it`, `wrap up`. Fires Session End and saves everything.

WHEN SOMETHING'S OFF

1. Describe the problem in plain English. The OS will usually route itself.
2. Or say `/diagnostics`.
3. Still stuck? Ping Tom in Slack `#leadership`. Tell him what you tried.

BRAIN AND PERSONA WORK (less frequent)

- New audience persona: audience persona for [brand + topic]
- OS feels stale: `/learning`
- Trends scan: social trends

Don't see what you need? Say `/help`. The OS will find the right skill or walk you through it.
